AUSTRALIAN PAEDIATRIC JOURNAL

INDEX TO VOLUME 12, 1976

AUSTRALIAN PAEDIATRIC ASSOCIATION

INDEX TO VOLUME 12

SUBJECT INDEX—VOLUME 12, 1976

A

Aboriginal children with bronchiectasis treated surgically or medically, the radiological follow-up of, 319
Accidents, childhood, 113
Adolescent school children in Victoria, growth and development of fat in.
I. Normal growth values and prevalence of obesity, 296
II. Influence of ethnic, geographic and socio-economic factors, 305
Airways disease, obstructive, in children, assessing. Which test is best? 72
Amino acid studies during complete intravenous feeding of small premature infants, 255
Assessing obstructive airways disease in children. Which test in best? 72
Asthma, facts and fallacies in a sociological study of, 88
Asthmatic, the problem: some significant perinatal factors, 83
Atelectasis, lobar, after nasotracheal intubation in newborn infants, 272
Australian Aborigines, skeletal maturation in, 24
Autoantibodies, immunoglobulins and hepatitis B antigen in children with chronic liver disease, 163

B

Balance studies of nine elements during complete intravenous feeding of small premature infants, 154
Bronchiectasis treated surgically or medically: the radiological follow-up of Aboriginal children with, 319

C

Candida albicans infection, systemic, disseminated, intravascular coagulation in, treated successfully with heparin and prothrombin concentrate, 53
Candidiasis, childhood urinary, successfully treated with 5-fluorocytosine, 49
Childhood accidents, 113
obesity, some unanswered questions about, 187
urinary candidiasis successfully treated with 5-fluorocytosine, 49
Cholestatic jaundice in infancy, 134
Chromosomal abnormalities, a five year survey of small for dates infants for, 19
Comment on the diagnosis of inborn errors of metabolism in Australia, 95
Complication of Gaviscon in a neonate—"The Gavisconoma", 47
Corticosteroids and avascular necrosis of the femoral head in childhood, 37
Cystinuria, the long-term management of, 102

D

Depression of respiratory muscles and defective responses to nasal obstruction during active sleep in the newborn, 261
Disadvantaged schools — health survey, 31
Disseminated intravascular coagulation in systemic *Candida albicans* infection treated successfully with heparin and prothrombin concentrate, 53

E

Echography, ultrasonic, for fetal and immediate neonatal surgery, selection of patients by, 313
Education of young children, play materials and toys in the, 1
Effect of posture on the presence of fat in tracheal aspirate in neonates, 267
Encopresis, the treatment of, using behaviour modification, 326
Extreme hypernatraemia in a child receiving gastrostomy feeding, 167

F

Facts and fallacies in a sociological study of asthma, 88
Familial juvenile nephronophthisis: report of a case including microdissection studies, 118
Five year survey of small for dates infants for chromosomal abnormalities, 19
5-Fluorocytosine, childhood urinary candidiasis successfully treated with, 49

G

Galactosaemia, problems encountered in the diagnosis of, 14
Gastrostomy feeding, extreme hypernatraemia in a child receiving, 167

Gaviscon, a complication of in a neonate — "The Gavisconoma", 47
Growth and development of fat in adolescent school children in Victoria
I. Normal growth values and prevalence of obesity, 296
II. Influence of ethnic, geographic and socio-economic factors, 305

H

Health survey — disadvantaged schools, 31
Height and weight changes of Melbourne children compared with other population groups, 281
Hepatitis B antigen: autoantibodies and immunoglobulins in children with chronic liver disease, 163
Hiatal hernia: a 20-year follow-up of children with a partial thoracic stomach, 92
Hyaline membrane disease: influence of early introduction of continuous positive pressure breathing on the source of, 276
Hypernatraemia, extreme, in a child receiving gastrostomy feeding, 167

I

Immunoglobulins, autoantibodies and hepatitis B antigen in children with chronic liver disease, 163
Influence of early introduction of continuous positive pressure breathing on the source of hyaline membrane disease, 276
Intravenous feeding, complete, of small premature infants: balance studies of nine elements, 154
amino acid studies during, 255

J

Jaundice, cholestatic, in infancy, 134
Jones, Peter: The Journal's First Editor, 131

L

Liver disease, chronic: autoantibodies, immunoglobulins and hepatitis B antigen in children with, 163
Lobar atelectasis after nasotracheal intubation in newborn infants, 272
Long-term management of cystinuria, 102
Lung disease, obstructive, ventilatory disturbance in children with, 77

M

Meckel's diverticulum, scintigraphic diagnosis of, 322
Melbourne children, height and weight changes of, compared with other population groups, 281
Metabolism in Australia, inborn errors of: comment on the diagnosis of, 95

N

Nasal obstruction, depression of respiratory muscles and defective responses to, during active sleep in the newborn, 261
Nasotracheal intubation in newborn infants, lobar atelectasis after, 272
Necrosis, avascular, of the femoral head in childhood, corticosteroids and, 37
Neonatal jaundice, phototherapy for, in Chinese, Malay and Indian infants, 43
surgery, immediate and fetal, selection of patients by ultrasonic echography for, 313
Nephronophthisis, familial juvenile: report of a case including microdissection studies, 118
Nutrition: a problem for paediatricians, 176
a problem for more than paediatricians, 185
human, in Australia, some shortcomings in, 183
symposium on, 176
Nutritional problems of young Australian Aborigines: undernutrition in the midst of plenty, 180

O

Obesity, childhood, some unanswered questions about, 187
Obituary, Ronald Hugh Caughey, 63

P

Phototherapy for neonatal jaundice in Chinese, Malay and Indian infants, 43
Play materials and toys in the education of young children, 1
Positive pressure breathing, continuous: influence of early introduction of on the source of hyaline membrane disease, 276
Premature infants, small: amino acid studies during complete intravenous feeding of, 255
balance studies of nine elements during complete intravenous feeding of, 154
Problem asthmatic: some significant perinatal factors, 83
Problems encountered in the diagnosis of galactosaemia, 14
Proceedings: 21st Annual Meeting of the Australian Paediatric Association, 189
9th Annual Meeting of the Paediatric Research Society, 220
Paediatric Research Society Scientific Meeting, 235
Publications Received: 247, 334

R

Radiological follow-up of Aboriginal children with bronchiectasis treated surgically or medically, 319

S

Scintigraphic diagnosis of Meckel's diverticulum, 322
Selection of patients by ultrasonic echography for fetal and immediate neonatal surgery, 313
Skeletal maturation in Australian Aborigines, 24
Some physical characteristics, including pock marks, tattoos and disabilities of convict boys transported to Australia from Britain c. 1840, 6
Some shortcomings in human nutrition in Australia, 183

Some unanswered questions about childhood obesity, 187
Symposium on nutrition, 176

T

Tasmanian infant feeding survey, 1974, 171
"The Gavisconoma" — a complication of gaviscon in a neonate, 47
Thoracic stomach, partial, (hiatal hernia): a 20-year follow-up of children with, 92
Tracheal aspirate in neonates, effect of posture on the presence of fat in, 267
Treatment of encopresis using behaviour modification, 326
Twenty-year follow-up of children with a partial thoracic stomach (hiatal hernia), 92

U

Ultrasonic echography for fetal and immediate neonatal surgery, selection of patients by, 313
Undernutrition in the midst of plenty: nutritional problems of young Australian Aborigines, 180

V

Ventilatory disturbance in children with obstructive lung disease, 77
